Updated: 9/22/2011

What a day it was in Strongsville Sept. 18. Two of the premier family oriented events in the city took place with Breakfast on the Covered Bridge in the morning and A Day at the Chalet in the afternoon.

Many families attended both events, making it a day of food and fun. RTA shuttle buses ran all day from the RTA Park-N-Ride off of Pearl Road near the Ohio Turnpike, making the events convenient to access.

Both events came off without a hitch. Many months of planning by the Strongsville City Club for Breakfast on the Covered Bridge and Arts in Strongsville for A Day at the Chalet were responsible for the overall success.

One very important aspect that neither organization could control was the weather. The 2011 version of these two events had the best weather ever experienced on the third Sunday in September. Honolulu blue skies with temps in the 60s during the morning and low 70s in the afternoon made for a picture postcard day.

It was amazing how many "I haven't seen you in some time" types of comments were made at the City Club-sponsored Breakfast on the Covered Bridge. The event was about great food amidst a picturesque setting in the Metroparks. But it was also about friends reconnecting with friends. Over 1,400 people attended, so there was a lot of reconnecting happening.

After Breakfast on the Covered Bridge, many people headed over for A Day at the Chalet, sponsored by the Arts in Strongsville.
